CSCI 3202
Lecture 25
October 24, 2025

"Notice all the computations, theoretical scribblings, and lab equipment, Norm. ... Yes, curiosity killed these cats."
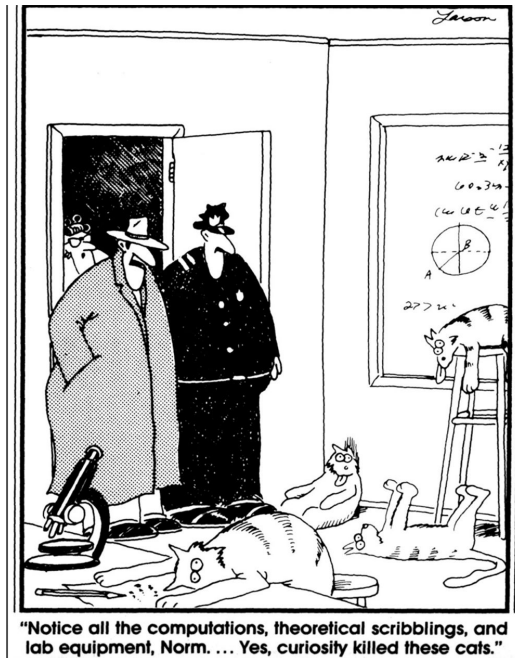

The Far Side by Gary Larson. https://www.thefarside.com/

Announcements
- Course project information available on Canvas
- If you haven't submitted project choice and partner please do so ASAP
  - **All** class members must submit
- Homework 6 Due on Today
- Homework 7 shifted to Wednesday
- Quiz #8 Today

Project
- CSCI 3202 Course Project 2025.pdf
- Make a choice on which project and whether to work alone or with someone else
- If you a doing an "on your own" project, you need to submit the survey and talk with me

Markov Decision Processes
- Sequential decision problem
- Fully observable, stochastic environment
- Markovian (probabilistic) transition model
- Additive reward structure
- Markov Decision Processes.pdf

Upcoming
- Reinforcement Learning next week
